DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rick Barnes on October 26, 2005.

The application has been amended as follows:

Cancel claims 1-2 and 6-10.

Please enter claims 11-12, 17, 19-20 as attached on a separate page herein.

Claim 3, line 1, delete "of claim 1" and insert - - of claim 11 --.

Claim 4, line 1, delete "of claim 1" and insert - - of claim 11 --.

Claim 5, line 1, delete "of claim 1" and insert - - of claim 11 --.

Claim 11, line 8, delete "bonding" and insert - - bounding - -.

Claim 11, line 15, delete "bonding" and insert - - bounding - -.

Claim 11, line 22, delete "bonding" and insert - - bounding - -.

Claim 17, line 16, delete "bonding" and insert - - bounding - -.

Claim 17, line 23, delete "bonding" and insert - - bounding - -.

Claim 17, line 30, delete "bonding" and insert - - bounding - -.

Allowable Subject Matter

2. Claims 3-5, 11-12, 17, 19-20 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, that the closest prior art of record **Dor (US 6,701,259)** does not disclose or suggest, alone or in combination, the step of:

Regarding independent claims 11 and 17, **enclosing groups of the defects within bounding boxes with different sizes to determine whether a given group of defects defines a given extended object, even though the size of the bounding box surrounding the given group of defects is different than the size of other bounding boxes surrounding other groups of defects that have also been defined as the given extended object, enclosing groups of defects within bounding boxes with different orientations to determine whether a given group of defects defines a given extended object, even though the orientation of the bounding box surrounding the given group of defects is different than the orientation of the other bounding boxes surrounding other groups of defects that have also been defined as the given extended object, and enclosing groups of the defects within bounding boxes with a different degree of overlap to determine whether a given group of defects defines a given extended object, even though the degree of overlap of the bounding box surrounding the given group of defects is different than the degree of overlap of other bounding boxes surrounding other groups of defects that have also been defined as the given extended object, in combination with the other elements and features of the claimed invention.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
